White Black

1.....

2.....

Have you moved one of your pawns (pieces) so that it is attacking a centre square?

3.....

4.....

Have you moved one of your ♖ towards the centre of the chess board?

5.....

6.....

Right now do you have a ♙ on one of the four centre squares?

7.....

8.....

9.....

Have you brought out your king-side ♘? (Without blocking your queen pawn on it's starting square)

10.....

11.....

12.....

Have you brought out both of your ♘

13.....

14.....

15.....

Have you castled and is your ♔ now protected by at least two of your ♙ who haven't moved from their starting squares?

16.....

17.....

18.....

Do you have ♜ on the open files?

19.....

20.....

Do you have the initiative? Are you defending or attacking?

What to look for when you evaluate a position?

- 1) Activity of the pieces
- 2) Material balance
- 3) Safety of the King
- 4) Pawn structure
