### Hair Extentions

Additional length, more volume, a different colour or new style?

Introducing Tape Hair, one of the worlds most sophisticated hair extention procedures, a breakthrough in hair technology that will transform your hair in a matter of hours and allow you to create the look you've always wanted.

Unlike other extentions on the market, Tape Hair is more gentle on your hair. This is because no glues, waxes or weaving is used, but rather a new pre-tape method leaving your scalp feeling smooth and natural.

Your new thicker, longer hair will look so natural that nobody will be able to tell the difference, they'll only notice how great your new hair looks, that's because Tape Hair Extentions are human hair and virtually undetectable. Your new extentions will feel and behave so much like your own natural hair, you can generally have them professionally coloured, permed and styled as you like.
